

Recruitment Profile
for

Vice President of Philanthropy

Braille Institute

POSITION DESCRIPTION

Title: Vice President of Philanthropy

Organization: Braille Institute

Reports to: President

Location: Los Angeles, California

ORGANIZATION OVERVIEW:

For nearly a century, Braille Institute has been working to eliminate barriers to a fulfilling life caused by blindness and severe sight loss. Founded in 1919, Braille Institute is one of the oldest and most comprehensive providers of services for people who are blind or visually impaired. It provides an environment of hope and encouragement for students and their families through integrated educational, social, and recreational programs.

Braille Institute serves thousands of children and adults every year through a wide array of free programs and services. Services are provided at five regional centers (Los Angeles, Anaheim, Rancho Mirage, San Diego, and Santa Barbara), a neighborhood center in Laguna Hills and over 200 community outreach locations throughout Southern California. Braille Institute also operates an award-winning library, a braille publishing house, and an information-rich website.

Braille Institute is funded almost entirely through private donations. Generous donors and dedicated efforts by approximately 2,500 volunteers enable staff to provide programs and services without charge. The ratio of volunteers to staff – 11 to 1 – creates an environment to serve an ever-growing number of people who are experiencing vision loss.

Braille Institute has an annual operating budget of approximately \$23 million, and is funded almost entirely through private donations. During the previous 10 years, the Institute has averaged \$18.6 million in annual Total Public Support, with approximately 70% of donations coming from bequests, followed by individual and institutional gifts.

Braille Institute provides a number of National Programs that extend its reach across the country. The Braille Challenge, a literacy competition for students ages 6-19, and Special Collection, a program that delivers free braille books to children have a national reach. Programs like Cane Quest, regional white cane travel competitions for students in grades 3-12, are quickly growing. Braille Institute also offers comprehensive adaptive technology training programs to help students develop their skills and realize their goals, whether they are academic, vocational, social, or information related.
